Daido Named Preferred Supplier by Robert Bosch

March 18th, 2016 – For the third consecutive year Daido Metal Co., Ltd. (Daido) has been named a preferred supplier of plain bearings by Robert Bosch GmbH. In presenting the award, Bosch cited Daido's outstanding services over the past years and inducted the company into the elite ranks of its strategically most important suppliers.

Based in Stuttgart, Germany, the Bosch Group is a leading global supplier of technology and services. It is the world's leading supplier of automotive components, including brakes, controls, electrical drives, electronics, fuel systems generators, starter motors and steering systems. The company also manufactures industrial and building products, as well as consumer goods.

Established in 1939 and based in Nagoya, Japan, Daido Metal Co., Ltd. manufactures a wide variety of bearings for automobiles, marine engines, construction machinery and general industrial use. The company has a global production and sales network in Japan, North America, Europe, Asia and China. It is the world's largest manufacturer of automobile and large ship engine bearings.

Its bearings are also used in trucks, agricultural machinery and motorcycles, as well as automotive turbochargers and shock absorbers. In addition the company's lead-free bearings are being used extensively by European automobile manufacturers, and its bearings for turbines in electric power generating stations are known for durability and longevity.
