Daido Metal Awarded First Award at Wärtsilä Supplier Awards 2024

Daido Metal Co., Ltd. was awarded the Supplier Awards 2024 by Wärtsilä(*) at the Suppliers Day Asia 2024 held in April 2024. Around 200 suppliers from Asia were invited to the Suppliers Day Asia 2024 where Wärtsilä shared its business strategy starting with next generation fuel.

Award

Award Presentation

Bearings for Medium-High Speed Diesel Engines (4 Stroke)

We supply Wärtsilä with bearings manufactured in Japan and the UK for use in their medium speed engines for marine engines, auxiliary engines and onshore power generators.

We were awarded this award based on comprehensive evaluation which judged our product quality, reliability, on time delivery and price competitiveness as excellent, our performance in customer service as high, and for us to be a supplier expected to have even greater progress in the future.

Our quick response through our system of having a Sales Office and a Technical Centre (UK), our proposals for new materials and technologies to meet Wärtsilä's needs for conversion and development of next generation fuels, and our efforts to expand production capacity in response to rising energy demand were all also praised.

We will continue to work with our customers to further refine our technological development and high-quality services to meet customer needs, in order to provide products that aim to achieve carbon neutrality.

(*) Wärtsilä is a global leader with more than 280 locations in 79 countries around the world, and a head office in

Finland. Wärtsilä actively promotes decarbonisation and life cycle solutions including innovative technology and conversion to next generation fuels in the shipping and energy-related markets.
